## IN A NUTSHELL

moving the sky

Hey to all the private jet operators  
and brokers out there!

We have a small riddle for you:

**HOW MUCH MONEY  
WILL YOU SAVE,  
IF YOU SAVE ..... 1 HOUR?**

**SAY ..... EVERY 5 MINUTES!**

Well, what 's your answer?  
A bit? Quite some?  
Or maybe, a lot of money?

Provided, of course,  
you are **ONBOARD VOO.**

NO MAYBES  
NO PERHAPSES  
NO DEAD REQUESTS  
ONLY BOOKINGS

VOO is the first digital B2B marketplace to search, book, pay and manage your private jet flights.

All your bookings are displayed on just one page.

Countless phone calls? Tons of e-mails?  
A thing of the past!

No more dead requests -  
only firm bookings.

It 's real.  
But doesn 't it sound just like a dream  
come true?

Now let's take a look at  
what's really new ...

## The BROKER What's NEW for you?

With VOO, your everyday processes will be much faster and far more efficient. VOO offers you fair, fixed and comparable prices for each jet listed on the platform. Thanks to VOO, you will have more time at your disposal for marketing and sales and, most importantly, to devote to your clients.

VOO prepays your flight on your behalf and grants you a payment period to repay costs. Thanks to VOOpay, your flight is guaranteed.

There is only ONE digital marketplace for your entire chartering business.

## The OPERATOR What's NEW for you?

With VOO, you will have no more dead requests and far more firm bookings. VOO guarantees you a first class presence on the platform. Your aircraft utilization will improve and your turnover grow, your costs will sink and your margins will rise.

VOO prepays your flight on behalf of the broker and assumes the risk of non-payment. Thanks to VOOpay, your payment is secured.

There is only ONE digital marketplace for your entire fleet.

Check out our VOO FLIGHT FOLDER! It shows the broker what the operator is doing. And it shows the operator what the broker is doing. LIVE!

# #VOOfacts

## #1

When looking for the coolest, shortest and most distinctive translation of the word FLIGHT, we came across the Portuguese word for it. VOO. So easy. And doesn't it sound just like a jet swishing by - or a booking just made on VOO?

## #2

VOO is being developed in Austria and is 100% an Austrian company, based in Graz.

## #3

VOO offers centralized communication and smart data transfer, making most e-mails and telephone calls unnecessary.

## #4

VOO is exclusively a B2B platform - end users cannot access it. This guarantees the brokers optimum use of the platform.

## #5

VOO can be integrated into other systems. This way, brokers and operators of any size are guaranteed to draw maximum benefit from VOO.

## #6

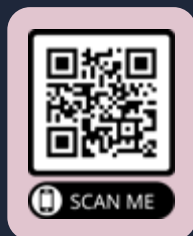

VOO is being developed by AVINOC. AVINOC is a blockchain-based company, committed to advancing aviation through revolutionary innovations.
